## WHERE WE CAME FROM

Our creation story began with the vision of ordained independent minister Gloria S. Moorehead, as Angels Landing Spiritual Center, founded in 2003. It was place for people to experience God's love and discover who they really are. Over time the group grew in its native Toledo, OH, then expanded to include an online community in 2020. With it's expansion, came an expanded scope of spiritual exploration, inclusion, healing, and education. The members and board transformed, and the core message resounded--that many spiritual/religious paths have teachings of great value, that each path is a unique expression of the individual, and that spiritual relationship is something we discover within us and through our experiences. This today remains the core beliefs of what is now called Sacred Awakenings.

## WHAT WE STAND FOR

### VISION & MISSION

As we express our Sacred Selves, we envision an expansion of consciousness & compassion in our world. Our mission is to provide a space for spiritual exploration of various sacred paths to awaken our greatest potential.

### COMMUNITY-CENTERED

This organization is co-created by the community it serves, where all contribute to the platform, organically meeting a variety of spiritual needs. Sacred Awakenings is a platform for all to contribute to if they are so inspired. Whether writings, photos, videos or teachings; our virtual space is created with the talents and hearts of the our community.

### CORE BELIEFS

There is a Power greater than ourselves. We are all One. There is inherent value and power in the pursuit of living a sacred life. We seek a a deeper connection to the Divine, a path toward a more fulfilling life, and connection to others on this path.
